Information about changes in our provider network
This directory is updated five days a week and has the most current information on our participating provider network. The network may change at any time, including between regular directory updates. Before you schedule appointments or receive services, please check with your providers to confirm that they participate in the network and are accepting new patients.

Information about your plan coverage
HMO and EPO members must receive care from providers only at the locations listed in this directory. If you receive care from one of these providers at another location that is not listed, your care will not be covered, except in a medical emergency. **POS and PPO** members may receive care from these providers at other locations not listed in this directory, but your care will be covered at the out-of-network benefit level.

Check your plan materials for coverage details and referral or authorization requirements
While certain providers may be listed in this directory, that does not mean that their services are covered benefits under your plan. Also, you may need a referral or authorization to see participating (in-network) providers for certain services. Please check your Benefit Handbook and other plan materials for details.

In some instances, you may need to go out-of-network for your healthcare needs. If there is not an available in-network provider, you may have the option to seek care with an out-of-network provider and still pay a lower in-network rate. If you need assistance finding a provider, including help receiving in- network care from an out-of-network provider, please call the Member Services Department using the number under “Contact Us”.

How to access immediate care for behavioral health and substance use disorder needs at a Community Behavioral Health Center (CBHC)
Community Behavioral Health Centers (CBHCs) across Massachusetts offer immediate, confidential care for behavioral health and substance use disorder needs. Crisis services are available 24/7 for anyone in Massachusetts who feels they may be experiencing a behavioral health crisis. CBHCs also offer day-to- day behavioral health and substance use disorder services. For questions about your coverage and benefits, please call the Member Services Department using the number under “Contact Us”. Visit https://www.mass.gov/info-details/find-a-cbhc to view a listing of Massachusetts (CBHCs).

Telehealth and/or telemedicine services
Harvard Pilgrim Health Care covers medically necessary telehealth and/or telemedicine services consistent with Chapter 260 of the Massachusetts Acts of 2020 and in accordance with the member’s benefit plan document. Services covered under telehealth should be clinically appropriate and not require in-person assessment and/or treatment.

Telehealth and/or telemedicine services include the use of synchronous or asynchronous audio, video, electronic media or other telecommunications technology including: (a) interactive audio video technology; (b) remote patient monitoring devices; (c) audio-only telephone; (d) online adaptive interviews; and (e) telemonitoring.

All Harvard Pilgrim Health Care contracted providers, including specialists and urgent care facilities, may provide telehealth and/or telemedicine services to members for medical (including chronic disease management), primary care services, behavioral health, ancillary health, and home health care visits (i.e., skilled nursing, PT, OT, and ST), for new and existing patients.

For more information on telehealth and/or telemedicine coverage, please check your Benefit Handbook and other plan materials for details.

Important Message About Our Provider Network
The provider network is subject to change. While we make every effort to keep this directory up-to-date, changes may occur at any time. The physicians and other medical professionals in our provider network participate through contractual arrangements. These contracts can be ended either by a provider, by Harvard Pilgrim, or the contractual organization on behalf of Harvard Pilgrim. A provider may also leave the network because of retirement, relocation or other reasons before your next enrollment date. This means that we cannot guarantee that the provider you choose will continue to participate in our network for the duration of your membership. If your PCP leaves the network for any reason, we will make every effort to notify you in advance, or as soon as possible, to help you find a new Harvard Pilgrim provider to meet your health care needs.

Quality Honor Roll Designations
This symbol indicates that this Primary Care Provider has distinguished itself in the delivery of high quality care. For a full explanation of the quality designations, please return to the results page and click on the Honor Roll ribbon. Due to technical limitations, the Quality Honor Roll symbol used in your personalized directory differs from those you viewed in the HPHC online directory. Please see the legend below for an explanation of the quality award symbols used in this directory:

- Primary Care Provider has distinguished itself in the delivery of high-quality care.

Accreditation for Hospitals, Rehabilitation Hospitals and Behavioral Health Facilities
JCAHO – Joint Commission Accreditation of Healthcare Organizations CARF – Commission on Accreditation of Rehabilitation Facilities

- **Weight Loss Surgery Center of Excellence**
Harvard Pilgrim offers a Centers of Excellence program for members who have been approved to have weight loss surgery. These facilities have met stringent quality criteria put in place by the Metabolic and Bariatric Surgery Accreditation and Quality Improvement Program (MBSAQIP), established by the American College of Surgeons and the American Society of Bariatric Surgery (ASBS).

Concierge Provider is designated with this symbol + to the right of his/her name. This physician requires payment of a subscription fee as a condition of accepting patients and for certain amenities and/or services that are not covered by your Harvard Pilgrim plan. Please contact the physician directly for more information before selecting him/her as your physician.
